Career Development Program for Doctors

Career Support & Coaching to help doctors forge individualised career plans, develop leadership and communication skills, navigate challenging professional situations and present impactful applications that get noticed.

Program Aims

- Educate medical practitioners on career opportunities within their networks and beyond
- Aid effective career review and reflection examining skills, passions, and motivations
- Help participants identify personal goals, gain clarity, and enhance their career potential
- Strengthen confidence and communication skills to effectively pursue and promote successes
- Leverage Standout Medical Careers' specialist knowledge, resources and tools to assess and seek new opportunities
- Develop a professional profile that stands out
- Strengthen strategic thinking and essential leadership skills

For Individuals

- Regular coaching sessions over a 12-month period (Min. 2 in person)
- Ongoing support – email, phone or online
- Access to expert career resources and tools
- Individual assessment of and assistance with CV and applications
- 3 group presentations/workshops over a 12-month period as per the needs of the organisation and delegates
- Webinars available to doctors via real-time attendance or recordings

For Groups

Standout Medical Careers can also deliver tailored group programs according to the needs of your teams.

- Tailored content webinars
- In-person or online workshops (up to 20 people) include:
 - Career planning
 - CV review and personalised feedback for each participant
 - Mock interviews
- Standout Medical Careers Career Development Workbook
